Flash slaves are used when you need to supplement one flash unit with one or several more. This slave trigger simply triggers those other units. It does this by "seeing" the first flash (using a phototransistor) and triggering the other flashes a few microseconds later. The sensitivity of the circuit is adjustable to compensate for ambient light or dimmer than usual master flashes.

Preflash can be adjusted

Pravila naručivanje:

(izmenjeno 12.02.2010.)

Odlučite se za nešto od ponuđenog ili pitajte za nešto čega nema u ovom improvizovanom katalogu. Ukoliko ste našli ono što želite, javite mi se, može telefonom, ali pre svega mailom, sa vašim kontakt podacima (telefon i tačna adresa na koju pošiljka treba da stigne) i poručite željenu robu.

Narudžbinu potvrđujete uplatom na moj dinarski tekući račun (po žiralnom kursu), gotovinom (u EUR). Instrukcije ćete već dobiti na mail. Po prijemu sredstava vršim naručivanje robe. Istoj treba od 2 do 4 nedelje da stigne. Bude to u principu i kraće, ali se često desi da se roba naruči, a onda se ispostavi da je nema na lageru, pa se čeka njeno nabavljanje.

Kad vam poručim robu, od mene dobijate identifikacioni broj pošiljke, sa kojim se kod mene možete informisati o statusu porudžbine (da li je sve pristiglo od dobavljača, da li je u fazi pakovanja ili je otpremljeno na poštu), a oni sa većim/skupljim porudžbinama će dobiti i link ka sajtu Honkoške pošte, na kome se mogu videti informacije o datumu kada je pošiljka poslata za Srbiju.

Za razliku od prošlih tura koje sam naručivao, gde sam bio trgovac, koji je robu nabavljao, carinio i slao kupcima (pa onda ono naganjanje da se nađemo, pa termin koji kome kad odgovara, pa trčanje do carine za svaki paket u poslednje vreme...), kod ovih novih tura sam samo *finansijski posrednik*, koji umesto vas kupuje nešto na vaše ime. Naručena roba stiže direktno iz Kine na vašu adresu (zato mi treba vaša TAČNA ADRESA), samim tim, ukoliko se roba bude carinila, vi odlazite na carinu i plaćate dažbine (o njima malo kasnije). Pošto sada paketi neće imati vidljive oznake pošiljaoca (u smislu da se vidi da je pošiljalac pravno lice), imaćete pravo na oslobođenje od carine na robu do vrednosti od 20€. Iz dosadašnjeg iskustva, sve dok pristizanje pošiljki nije postalo učestalo, ni jedna nije carinjena, iako je bilo i vrednijih i kabastijih pošiljki.

Cena robe je navedena u zelenim poljima. Dodatni troškovi koji se mogu javiti su troškovi carine i PDV-a (zajedno 30%) + oko 400 din kao fiksni trošak po paketu na ime administrativne takse + oko 70 din za neke teže ili veće pošiljke jer ih dostavljaju kao preporučene. Ako se roba bude carinila, obično udare cenu od 20€ kao osnovicu koju carine, pa vam pošalju poštom robu, a vi platite sve dažbine pouzećem. Jednostavno. Mada, većina će vas proći bez carine :)

Budući da nemam kontrolu nad pošiljkom, iako mi do sada ni jedna nije nestala ili bila zagubljena, pošto od sada one stižu na vašu adresu, neću imati uvida da li je ona zaista stigla do vas, te stoga NE SNOSIM NIKAKVU ODGOVORNOST ZA (NE)PRISPEĆE POŠILJKE, kao ni stanje u kome stiže roba, njenu ispravnost i sl. Svi troškovi nastali nakon poručivanja su na vama, a to uključuje i eventualni trošak vraćanja neispravne robe pošiljaocu. Još jednom napominjem da od mora robe koja mi je do sada stizala, ni jedan akrtikal nije bio neispravan i da je kvalitet robe često iznenađujuće dobar. Ali, kao

što volim da kažem, računajte da je kvalitet robe odgovarajući ceni. U pitanju je Kineska roba i ukoliko vam se nešto učini izrazito jeftinim, to je zato što je takav i kvalitet. Može se desiti da proizvod ne odgovara dizajnom u potpunosti onome koje ste videli na fotografiji. Ni tu vam nema pomoći :) Naravno, trebalo bi da radi isti posao. Ili to ili da ga vraćate za Kinu (uz moju pomoć, ali samo logističku).

Neko će se zapitati kakvu onda garanciju uopšte imate za svoju robu osim moje reči da je nešto naručeno? Pa, realno, istu garanciju kao i kad naručujete bilo šta sa interneta. Osim što ovaj put znate moje ime i možete čuti neke pozitivne komentare od ljudi kojima sam do sada naručivao :)

Ukoliko vam se i posle ovakvog zaključka naručuje nešto sa prethodnih strana, smatraću da ste pristali na navedene uslove saradnje, pa me slobodno kontaktirajte, jer i sam koristim neke od pominjanih artikala :)

P.S. S vremena na vreme skinite sa http://mariotomic.com/temp/fotooprema.pdf noviji katalog. U zaglavlju svakog piše datum kada je ažuriran poslednji put, a sve nove stavke od poslednja dva ažuriranja će imati crveni balončić NOVO pored slike.
